MATERIALS

Tested and approved by independent laboratories on new materials and simulated aging simulation.

Everything has been designed to limit its impact on the environment and respect the precautionary principle.

CUSTOMIZATION

Pad printing

on the Gobi body Dimension 4 x 4 cm

Process using a silicone pad which transfers the logo ink onto the gourd. This stamping process allows you to print on a rounded shape with excellent quality and precision.

The marking is dishwasher-safe and will not deteriorate over time.

DID YOU KNOW?

Writing your first name on the round card allows you to identify your water bottle, promotes a sense of belonging and guarantees the health safety of your employees.
